## *SeCQure Surgical completes acquisition of Atrium's biosurgery business.*

**FOR RELEASE: October 17, 2018; 9:00 a.m. EDT**

*Cincinnati, Ohio* — SeCQure Surgical, a global provider of devices for open and minimally invasive surgery, has signed a definitive agreement to acquire Atrium Medical Corporation's hernia mesh line of products. The purchase includes all manufacturing, distribution, and commercial assets, including future products currently in development.

Atrium Medical Corporation's biosurgery business comprises an extensive family of coated and non-coated mesh products, including C-QUR®, PROLOOP® and PROLITE®. These well-established meshes for soft tissue repair cover all types of laparoscopic and open hernia procedures.

Joseph Tang, CEO of SeCQure Surgical states, "The acquisition of this well-respected line of implantable materials for soft tissue repair will greatly complement our current offering of surgical staplers and energy devices, and delivers on our commitment to build a world-class surgical portfolio for our customers worldwide."

Under the contract, SeCQure Surgical will start distribution of Atrium's meshes worldwide on January 1, 2019. Customers will continue to be serviced and orders placed through their current channels. SeCQure Surgical has put together a dedicated team of seasoned professionals to develop and innovate the hernia mesh business and expand its distribution. SeCQure Surgical will work closely with its network of surgeons, clinicians, and healthcare providers to deliver safe and effective solutions for hernia repair surgery.

### **About SecQure Surgical**

SecQure Surgical partners with healthcare professionals to provide versatile system configurations in Surgical Energy (Ultrasonic and Electrosurgical), Biomaterials Surgical Mesh, and Surgical Staplers for both minimally invasive and traditional open procedures.

Our surgical instruments provide the functionality, quality and security that customers have come to expect, with the advantage of reusability, sustainability and cost savings that providers face in today's environment.

### **About Atrium Medical Corporation**

Atrium Medical Corporation is a subsidiary of Getinge, a global provider of innovative solutions for operating rooms, intensive-care units, sterilization departments and for life science companies and institutions. Based on first-hand experience and close partnership with clinical experts, healthcare professionals and medtech specialists, Getinge is improving the everyday life for people, today and tomorrow.
